

## The Details:

Huron Solutions Presents:

# Kaizen / 5S "How-To" workshops

Huron Solutions presents a 6-hour hands-on workshop to introduce the concepts of Waste Free Manufacturing, Kaizen (continuous improvement) and 5S (workplace organization and cleanliness).

You will learn through theory, examples, videos and a hands-on manufacturing simulation game.

### Session 1 (8:30 to 10:30):

Participants will learn the principles of **5S** (Workplace organization and cleanliness) based on a presentation and the Video "**Five S Factory Makeover**" and play Round 1 of the Truck factory simulating a typical batch manufacturing situation.

### Session 2 (10:40 to 12:10):

Participants will study an assembly case study learning the principles of **Kaizen** (continuous improvement). They will also watch the video on "**Toast Kaizen**".

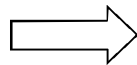

### Session 3 (12:40 to 14:30):

Participants will study a fabrication case study to learn more **Kaizen** principles and end the day by implementing Kaizen principles to the Truck factory and play the final round.
